

## Downloading and Installing the Cisco VPN Client for Windows

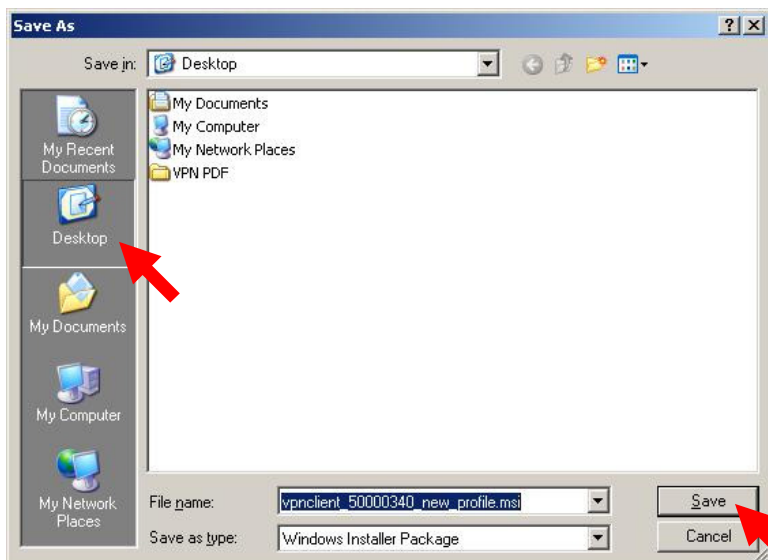

Please click the link below to download the Cisco VPN client for Windows:

<https://extranet.in.gov/vpn/base/Default.asp>

Click the hyperlink to “Download VPN client software (Cisco)”

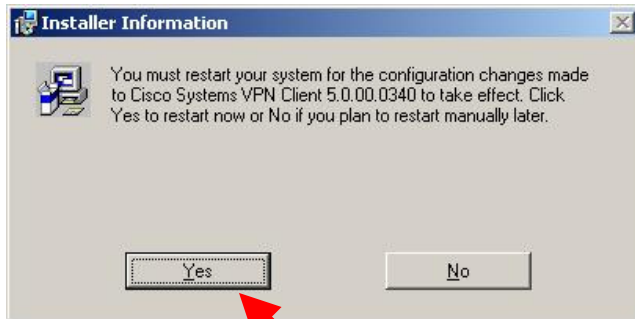

Save it to your Desktop

Close all open windows and double click the icon on your desktop.

After the program installs, click YES to reboot.

After the reboot, open the Cisco Systems VPN client by clicking Start >> Programs >> Cisco Systems VPN client >> VPN Client

Double click StateOfIndiana to connect using your network username and password.
